### Handle:

Last row : 30 sc, sk 10 st(s), 30 sc, sk 10 st(s), last - sl st and join (*Total – 80st(s)*)

- Continue row 17 until desired height. I repeated this row for 30 times. Btw, I changed colors in between.
- You can stop this basket at this stage or make another one basket in small size than 1<sup>st</sup> basket. insert smaller basket into larger one and make it as reversible. (make sure the smaller basket is reversed before inserting it into bigger one)
- (for eg., larger basket has 80 st(s) at last, smaller version should have 75 st(s) and height should also be reduced by 1 )
- Join both the baskets using sc(s) – *approx.* Join both handles and make 20 sc(s)
- At last weave in loose ends
